Jason Ruesch

(801) 560-5930 | jason.ruesch@me.com | Raleigh, NC

Experience

Red Rover | Remote
Senior Software Engineer | 01/2025 - Present

- Leading the frontend development of a new Professional Development Management product for K-12 school districts

Degreed | Remote
Senior Engineer II | 01/2020 - 01/2025

- Led the overhaul of the design system, integrating Tailwind CSS and Figma, resulting in a streamlined frontend development process and improved consistency
- Mentored frontend developers, improving their expertise in React and Tailwind CSS, enhancing team capabilities and accelerating project delivery
- Implemented automated versioning, release note generation, and deployment for frontend applications and npm packages using GitHub Actions
- Collaborated with design systems and feature teams to ensure brand alignment with a custom Tailwind CSS configuration
- Engineered and implemented component libraries for Angular and React, integrating Headless UI for React components and Angular CDK

Relias | Morrisville, NC
Senior Software Engineer | 01/2008 - 01/2020

- Implemented innovative features into the online learning management software for the healthcare industry, leading to an increase in user accessibility and system flexibility
- Developed other products including e-commerce platform integration, iOS and Android mobile apps, and data synchronization with Salesforce
- Worked with Angular, Ionic, ASP.NET Core, C#, SQL Server, Azure, SSIS, SSRS, WCF, jQuery and other JavaScript libraries
